

USO Travel Pillow Pattern

Fabric needed: 1 yard of cotton or soft fabric (will make 3 traveler size pillow cases)

Cutting instructions: cut each case 12" x 36"

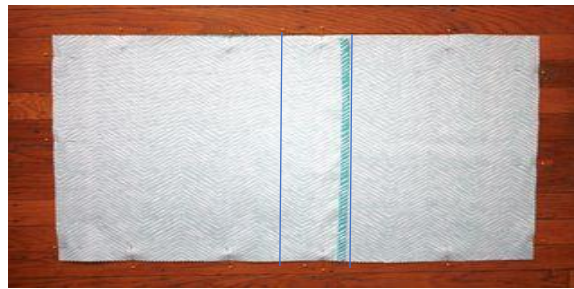

Sewing instructions: seams are ¼"

On each short end (12") turn under the end ¼", press and turn end under again, press.

Stitch the ends where they have been folded under. Fold each end over, (right sides together) overlapping 3" in the center. Stitch each of the sides, back stitching where the ends overlap. This will keep the ends from pulling apart while stuffing the pillows in. Trim the corners. The pillow case should measure 12" x 16", turn right side out, press.

Fold ends under and stitch across.

Fold end to the center, right sides together overlapping 3". Stitch both sides.

The travel pillow cases only take a few minutes to make. Think of the joy a pillow will give to service men and women that will receive them.
